Conditions for Sending Students Home with COVID-19-like Symptoms:

This assumes “no known exposure.” If there is a known exposure, student will go home with only 1 symptom

2 of the following

Headache
Nasal congestion/runny nose
Body aches/chills
Sore Throat
Nausea
*Vomiting, Diarrhea, abd pain

1 of the following:

Fever (100.4 or greater)
** New uncontrolled cough
** Shortness of breath
** Difficulty breathing
Loss of taste and/or smell
New onset of **severe** HA

*New onset vomiting/diarrhea/and pain. Students who have reflux, anxiety, or other reasons for these symptoms will be considered individually.

**For students with chronic allergic/asthmatic cough, a change in their cough from baseline. SOB.difficulty breathing that does not resolve with the use of a rescue inhaler.

According to CDC guidance, your student will need to stay home for:

- At least **10 DAYS** from onset of symptoms
- **AND** at least 24 hours fever-free without the use of fever reducing medication (such as tylenol or ibuprofen)
- **AND** improving symptoms, such as cough and shortness of breath

Students may return in fewer than ten days after meeting one of these conditions:

- Your medical provider has determined a different illness than COVID-19 and cleared your student to return
- OR**
- Your student has documentation of a negative COVID-19 test and cleared by medical provider to return
